Total number of jobs in Cornelius

About the data: All data on this page are from the Longitudinal Employer-Household Dynamics (LEHD), a national dataset that provides detailed information about where people work and live. It captures wage and salary jobs covered by unemployment insurance (which account for about 95% of private sector wage and salary employment) but does not include informal workers or the self-employed. A worker's employment location is based on the physical or mailing address reported by the employer, which in some cases may be different from the location at which an employee performs his/her work.
